Browsing Your Music Collection With The
iQ.TS35
Touch Screen Interface

1. Getting Started

Home Page

Switch to Now Playing
Pick a different audio source.

CONTROL OTHER ROOM
Turns off speakers (in the current room).

MULTIROOM PARTY
Create specialized party events that play music in multiple rooms from the same source.

Examples include whole house party for all rooms, or dinner party that combines the kitchen and dining room.

CLEAN SCREEN
Displays a countdown for 10 seconds that disables the touch screen during cleaning.

2. Choosing a Source

Source Selection

Displays a list of all the available audio component sources, including the iQ CD collection source.

3. Finding Your Music

Browse by Category

Choose a different room in the house to control and play music.

Browsed list sorts according to the category. Press the up and down hard buttons to page up and down accordingly.

Press a selection in the list to display the content of that item and show more information (such as the album if browsing by artist) or start playing if displaying songs.

To display play options, press the icon to Play Now or add to the end of the current Now Playing list.

Search

Selecting Search from the Browse by Category allows you to search by Artists, Albums, Songs, or Genres. Use the onscreen keyboard to type the first letters of the desired music title. Use the up and down hard buttons to toggle between the rest of the alphabet or press the 123 button to display numbers.

Browse

Displays entire Now Playing list
Empties Now Playing list and stops music.

Shuffle
Plays randomly from Now Playing list

Rolls Now Playing list

Lock Source
Prevents source from being controlled by another room.

Current source is unlocked.

Current source is locked in another room.

Source Lock

This room is sharing a source with another room.

This room is in Party Mode. To leave party mode, go to Home page, then Multi-Room Party, then Leave Party.
